**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

in response to the invitation for the bid made by:

\_\_\_\_\_

## **1. Introduction**

The National Department of Health (NDoH) is one of the recommended Principal Recipients (PRs) that will implement Global Fund programmes from the 1<sup>st</sup> April 2022 to 31<sup>st</sup> March 2025. PRs serve as grants management units while sub-recipients (SRs) will be the main implementers of the programmes. Therefore, NDoH invites interested non-profit organisations (NPOs) and government departments to apply to be considered as SRs who will be implementing the Global Fund TB/HIV Grant activities in 12 prioritised districts that form part of the TB/HIV request for funding (RFF) submitted to the Global Fund to Fight AIDS, TB, and Malaria by the Global Fund Country Coordinating Mechanism (CCM) in August 2021. The NDoH seeks the services of SRs to implement robust strategies for TB prevention, early TB diagnosis, linkage to treatment for TB disease and TB infection as well as retention in treatment and care until completion. In addition, the SRs will strengthen the delivery of TB services at facility and community levels by improving the quality of care and data management.

Interested entities should meet all NDoH and Global Fund grant requirements and have the capacity to implement an agreed comprehensive package of services to be determined by the NDoH. SRs should be able to implement the package of TB services in an efficient, effective, sustainable manner and demonstrate value for money. The NDoH will use specific criteria to appoint SRs that demonstrate the ability and capacity to function as SRs according to NDoH and Global Fund requirements.

**It should be noted that applicants are required to submit implementation plans and not costed workplans with budgets as part of this call for proposals.**

Applicants who are selected by NDoH for an SR role will undergo a capacity assessment by the NDoH and the Local Fund Agent (LFA) before the final decision to appoint them is made. The selected SRs will also be invited to undertake detailed programming, costing, and budgeting under the guidance of NDoH and Global Fund requirements.

## **2. Roles and Responsibilities**

### **2.1 Principal Recipient**

As a PR, NDoH's role is to manage and coordinate the implementation of the grant, disburse funding, provide support to implementers and report to the Global Fund in-country authorities such as the CCM, provincial AIDS Councils and National Treasury. The PR ensures prudent management of grant funds in accordance with the obligations under the Global Fund Grant Regulations and that the SRs fulfil all fiduciary responsibilities as agreed upon with the Global Fund.

The PR shall appoint the required number of SRs to implement a full comprehensive package of services, based on the set objectives and criteria that demonstrate the capacity and experience

to implement large programmes. The PR has the responsibility to select the most capable SRs in an open and transparent process and the selection must be in line with relevant NDoH and Global Fund policies, and other relevant Guidelines.

## **2.2 Sub-Recipients**

SRs have a contractual relationship with the PR and are direct implementers of programmes financed by the Global Fund. Selected SRs are expected to contribute to the delivery of the program and subsequently to the good performance of the grant. The responsibilities of SRs include the following:

- Sign Service Level Agreements with the PR.
- Appoint and contract service providers, where necessary, under the guidance of and approval by the PR.
- Develop work plans and budgets that will be approved by the PR.
- Collaborate with relevant district management teams, other stakeholders, and structures such as government departments, provincial, district and local AIDS Councils so that implementation is coordinated and contributes to broader local implementation plans.
- Propose changes to the PR on the work plans and budgets when necessary.
- Participate in performance review meetings to improve programme performance and impact.
- Report on programme progress and challenges to the PR and district management teams through regular reports.
- Identify key implementation issues and bottlenecks and escalate to the PR.
- Provide additional grant-related information to the PR when requested.
- Implement any other grant-related intervention as requested by the PR.

## **3. Organisational Requirements**

The minimum requirements to serve as an SR include:

- Asset management.
- Audits mechanisms.

### **3.3 Monitoring, Reporting and Evaluation**

- Organisational structure and M&E functions.
- Human capacity for monitoring and evaluation unit.
- Coordination and management of M&E systems.

- Database and information management system.
- Data dissemination and use.

### **3.4 Human Resource Management**

- Organisational human resource structure and functions.

**These organisational requirements will be assessed during the evaluation and capacity assessment processes.**

#### **4. Geographic Location**

The SRs will be expected to provide a full comprehensive TB/HIV package of services in 12 priority districts namely – **Amathole, Buffalo City, City of Cape Town, Johannesburg Health District (City of Johannesburg), Dr Kenneth Kaunda, Ehlanzeni, Ekurhuleni Health District, eThekweni, Francis Baard, King Cetshwayo, OR Tambo, and Ugu.**

#### **5. Grant Implementation Approach**

The National Department of Health has adopted the 90-90-90 strategy to fight against TB and to contribute to the Sustainable Development Goal (SDG) to end TB by 2030. The implementation approach will focus on implementing targeted strategies for finding and treating TB in adults and children through risk profiling, strengthening systems for linkage and retention in care, strengthening prevention strategies, improving the quality of TB services and data management at facility and community levels. In addition, the following overarching interventions are critical to the attainment of these targets:

- 1) Capacity building for staff at facility, sub-district and district levels.
- 2) Use of quality improvement methodology to close the gaps along the TB care cascade.
- 3) Providing technical support and mentoring to health facility staff.
- 4) Strengthening community outreach services including the decentralised model of care (DMoC).
- 5) Use of mHealth technologies to support screening, linkage, and retention in care strategies.
- 6) Social mobilisation, awareness, and stigma mitigation.

The SRs will work closely with and be accountable to the District Health Management Teams (DHMT) and the PR. The SR implementation plans must support the district TB service recovery or catch-up plans to ensure the attainment of the set targets. The implementation models may differ based on the district health systems and community dynamics; this should therefore be guided by the DHMT. The district remains central to the implementation and will provide guidance and support to ensure sustainability. The SR is expected to work with the district management teams and facilities to ensure monthly and quarterly reporting to the PR.

#### **6. Scope of work for the Comprehensive Package of Services in Twelve Priority Districts**

Below is the scope of work for the comprehensive package of services applicable to the twelve priority districts and it is divided into three programmatic modules. The program will be implemented at district, sub-district, hospital, CHC, clinic and community levels within each district.
