GUIDELINES OF ABSTRACT: 13TH WORLD ENVIRONMENTAL HEALTH DAY (WEHD) COMMEMORATION

The theme for WEHD 2024 is “***Environmental health: Creating resilient communities through disaster risk reduction and climate change mitigation and adaptation***”.

Scientific abstracts should include the background, objectives, methodology, results, conclusion and recommendations.

Operational research abstracts (i.e. case study/good practice write-up) should include the background, intervention, results, lessons learnt and recommendations.

Presentation:

- Oral presentation: 15 minutes presentation on Microsoft PowerPoint with five minutes for discussions.
- Poster presentation: 5 minutes presentation on the poster with three minutes discussion.

Final version of presentation:

- Final presentation to be delivered during the conference should be submitted to the organisers 14 days before the presentation date.
- The abstract should be a one pager of not more than 300 words.

The abstract should adhere to the following:

- Have an introduction, body and conclusion.
- Be written in English.
- Be relevant to the theme and thematic area.
- The work was done in the period between 2019 and 2024.
- The work is owned by an individual or group.
- The document is in Microsoft Word, single-spaced, using Arial size 12 font.
- The presenter must indicate whether it will be an oral or poster presentation.

Notes:

- Feedback will be given to all applicants on the status of the abstract.
- Presenters to plan for their travel and accommodation to the venue.
